

A HOUSE OF FILTER MEDIA

# SAMARTH

MICROFILT CORPORATION

## ABOUT US

We are involved in manufacturing and supplying filter media and related accessories for liquid filtration, air filtration and dust collection systems for last 15 years.

We have Vast Experience of Serving Filter Products for,

- » Pharmaceutical Industry
- » Agrochemical industry
- » Organic and Inorganic Industries
- » Oil Refining Industry
- » Food Industry
- » Metallurgical Industry
- » Mining Industry
- » Cement Industry

We are committed towards better quality and service.

**CLEANING THE AIR FOR A BETTER AND HEALTHY ENVIRONMENT**

## LIQUID FILTRATION

We Manufacture Standard and Custom Sized Industrial Filter Bags for various Equipments used for Liquid - Solid Filtration like,

- » Centrifuge
- » Nutsche filter
- » Agitated nutsche filter
- » Filter press
- » Rotary vacuum filter
- » Sparkler filter
- » Star filter
- » Pressure filter
- » Cardridge filter
- » Leaf filter
- » Candle filter
- » On-line filter

The fabric used for bag manufacturing varies according to mesh size , particle retention, operating temperature and chemical compatibility. We have wide range of filter fabrics available like polypropylene in spun and multifilament, polyester spun, nylon, fiber glass and metallic wire mesh according to clients need.

## AIR FILTERS

We Supply HVAC Filters for Chemical, Food and Pharmaceutical Industries.

- » HEPA filters
- » Pleated air filters

## DUST COLLECTORS

We have wide varieties of dust collector filter bag used in bag house, dryers, millers, pulverizers and environmental emission control like in boiler and incinerator. Either pulse jet, reverse air or shaker type.

Wide variety of woven and non-woven fabric option available for low, medium and high temperature application with excellent particle retention ability and chemical stability. Media used are made from,

- » Polypropylene
- » Polyester
- » Aramide (nomex)
- » Polypropylene sulphide (ryton)
- » Homopolymer acrylic
- » Fiber glass
- » Nylon
- » PTFE

**We provide special finishes on non woven fabrics on requirement.**

- » Glazed finish
- » Silicon or water repellent finish
- » Antistatic fabrics with copper and stainless steel wire
- » Graphite-carbon finish

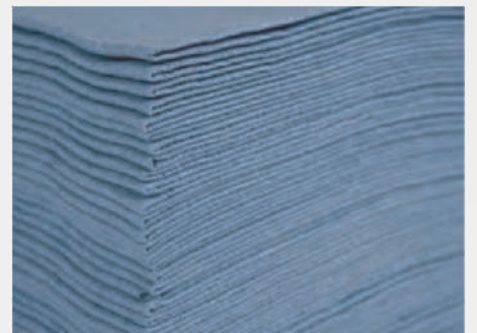

## FILTER BAG CAGES

We supply wide range of filter bag cages and venturi used for varied industrial application. These Industrial filter cages are made of GI/MS/SS.

## LINT FREE CLEANING WIPES

We make lint free wipes for spillage and contamination control in pharmaceutical and food industries.

**“ BE A PART OF THE SOLUTION  
NOT PART OF THE POLLUTION”**

## **TIME COMMITMENT**

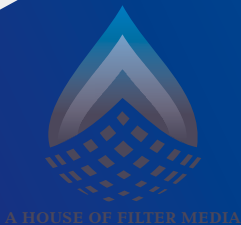

With the state of art infrastructure and mechanical potency we meet up the bulk requirements within the stipulated time framework.

## **PRECISION**

Well managed production processes make sure that our filtration products meets the most standardized, consistency and performance.

## **QUALITY**

We are dedicated to supplying most urbane industries with product of the premier and most reliable quality
